

# SAFETY ESSENTIALS

MANDATORY SAFETY RULES FOR OUR HIGH RISK ACTIVITIES

Never tamper with, remove or bypass any safety device.

Never enter a confined space without obtaining authorisation.

Never work at height without fall protection.

Never operate a vehicle while using a handheld device or without wearing a seat belt.

Never work or travel under a suspended load.

Never walk directly behind or in the path of reversing mobile plant or vehicles.

Never consume or be under the influence of alcohol or drugs while at work.

Never work on an energy source without the correct method of isolation and verification.

Never remove another person's Danger Tag or Personal Lock without written authorisation.

Utilita's Safety Essentials are Mandatory Rules that make it very clear what is expected when undertaking activities that could impact on safety at work.

We will not compromise on these Rules as the safety of our people, contractors and the wider community is of paramount importance to us.

**Nathan Hallam**  
Contract Director

Never enter a designated exclusion zone without authorisation.

Never begin a skilled task or operate equipment and machinery unless licensed/competent or under supervised training and only within defined safety limits.
